## Prohousing Designation Program Application Package Instructions

The applicant is applying for a Prohousing Designation under the Prohousing Designation Program (“**Prohousing**” or “**Program**”), which is administered by the Department of Housing and Community Development (“**Department**”) pursuant to Government Code section 65589.9.

The Program creates incentives for Jurisdictions that are compliant with State Housing Element Law and that have enacted Prohousing Policies. These incentives will take the form of additional points or other preference in the scoring of applications for competitive housing and infrastructure programs. The administrators of each such program will determine the value and form of the preference.

In order to be considered for a Prohousing Designation, the applicant must accurately complete all sections of this application, including any relevant appendices. The Department reserves the right to request additional clarifying information from the applicant.

This application is subject to Government Code section 65589.9 and to the regulations (Cal. Code Regs., tit. 25, § 6600 et seq.) adopted by the Department in promulgation thereof (“**Regulations**”). All capitalized terms in this application shall have the meanings set forth in the Regulations.

All applicants must submit a complete, signed application package to the Department, in electronic format, in order to be considered for a Prohousing Designation. Please direct electronic copies of the completed application package to the following email address: [ProhousingPolicies@hcd.ca.gov](mailto:ProhousingPolicies@hcd.ca.gov).

A complete application will include all items identified in the Application Checklist.

In relation to **Appendix 1**, the Formal Resolution for the Prohousing Designation Program, please use ~~strike through~~ and underline if proposing any modifications to the text of the Resolution. Please be aware, any sustentative deviations from the Formal Resolution may result in an incomplete application and will likely be subject to additional internal review and potential delays.

**Appendix 2**, the Proposed Policy Completion Schedule, applies only if an application includes proposed policies.

**Appendix 3**, Self-Scoring Sheet and Sample Self-Scoring Sheet, includes a blank template to be completed by the applicant as part of the application, as well as a Sample Self-Scoring Sheet with an example of how this template may be completed.

**Appendix 4** lists examples of Prohousing Policies with enhancement factors to aid applicants in understanding how enhancement factors may be applied.

**Appendix 5** provides a sample template to assist applicants with confirming the treatment of homeless encampments within the jurisdiction is consistent with USICH's "7 Principles for Addressing Encampments."

**Appendix 6** provides a checklist to confirm that a Diligent Public Participation Process was conducted.

**Appendix 7** is where the applicant will include any additional information and supporting documentation for the application.

If you have questions regarding this application or the Program, or if you require technical assistance in preparing this application, please email [ProhousingPolicies@hcd.ca.gov](mailto:ProhousingPolicies@hcd.ca.gov).

## Appendix 5: Homeless Encampment Template

[Subchapter 6.6 Prohousing Designation Program](#) requires applicants to confirm that its treatment of encampments on public property complies with and will continue to comply with the constitutional rights of persons experiencing homelessness. An application must include a one-page summary demonstrating how the applicant has enacted best practices in their jurisdiction related to the treatment of unhoused individuals camping on public property, consistent with the United States Interagency Council on Homelessness' "7 Principles for Addressing Encampments (June 17, 2022). The following template and certification are included to help jurisdictions meet this threshold.

- **Principle 1: Establish a Cross-Agency, Multi-Sector Response to Encampments –** Describe how system partners (name partners) work together to prioritize health and safety both for residents and unsheltered individuals. (350 characters max)

The County adopted the Encampment Response Guidelines (Guidelines; attached) coordinate response to encampments in 2025. The County, Continuum of Care, Fire Districts, the Housing Authority, and housing service providers prioritize health and safety for unsheltered residents through a coordinated approach by integrating housing services, law enforcement, and environmental protection into a single workflow.

- **Principle 2: Engage Encampment Residents to Develop Solutions –** Describe street outreach efforts to engage with encampment residents to find alternative shelter, housing, and service options using the housing first approach before an existing encampment is closed. (350 characters max)

The Resident Outreach Team builds relationships to assess needs and connect residents to housing and activities. They coordinate with partners to manage next steps for residents and their belongings in case of displacement. The team consult on timelines to ensure effect engagement, with at least 72 hours' notice before activities.

- **Principle 3: Conduct Comprehensive and Coordinated Outreach –** Describe multidisciplinary connection strategies and linkages to resources and permanent housing solutions that is customized to individual needs. If applicable, describe how the jurisdiction uses the coordinated entry system to connect individuals to resources and permanent housing. (350 characters max)

The Outreach Team use a trauma-informed, anti-bias approach to address immediate needs and provide disability accommodation for people living with physical and mental disabilities. They collaborate to identify service gaps and ensure accountability through meaningful public feedback and clear grievance processes to improve response quality.

- **Principle 4: Address Basic Needs and Provide Storage –** Describe efforts to meet basic needs, health, safety, and access to storage (timeframes) for people experiencing unsheltered homelessness while creating clear pathways to permanent housing. (350 characters max)

The Guidelines cover assessing environmental impacts, resident safety and needs, and making connections to housing and community resources. Assistance with relocation and safekeeping of belongings in case of closure. Personal property is logged and held in accessible storage for at least 90 days, allowing recovery if the owner is absent during removal.

- **Principle 5: Ensure Access to Shelter or Housing Options** – Describe how low barrier resources to housing and supportive services are communicated to encampment residents. Include how strategies involve alternative measures to criminalization, focusing on service engagement and harm reduction. (350 characters max)

Emphasis on building trust and rapport and enforcement as a last resort. Frequent communication using clear and population appropriate language with an emphasis on verbal communication. Services include document safekeeping and policies avoid criminalizing homelessness, weighing displacement impacts against immediate health and safety needs.

- **Principle 6: Develop Pathways to Permanent Housing and Supports** – Describe Housing First strategies emphasizing low barriers, a harm-reduction model, and services to support people obtaining permanent housing more efficiently. Identify efforts to align federal, state, and local funding/programs to provide clear pathways to permanent housing. (350 characters max)

Housing First strategies prioritize stable housing without preconditions like sobriety. Coordinated Entry (CE) targets the vulnerable through non-punitive, client-centered support. Aligning federal, state, and local funding (general fund and some Measure K funding) enables permanent housing, rapid rehousing, CEs, and navigation services to help individuals overcome barriers to secure safe homes.

- **Principle 7: Create a Plan for What Will Happen to Encampment Sites After Closure** – Describe plans for former encampment spaces (long-term solutions to prevent encampments from reoccurring). Include efforts to emphasize safety, accessibility, and inclusivity that improve infrastructure. Example: Communities can include curb cuts to increase mobility access and enhanced lighting to encourage safety. (350 characters max)

Post-closure, sites are cleaned and restored by the department/agency responsible for ensuring safe public access. Riparian buffers are rehabilitated, and signage is installed to protect resources and prevent re-encampment. Vector Control and Public Health assist to ensure the space remains safe, sanitary, and free of hazards.

Eliminating minimum parking requirements for residential development as authorized by Government Code section 65852.2; adopting vehicular parking ratios that are less than the relevant ratio thresholds at subparagraphs (A), (B), and (C) of Gov. Code section 65915, subdivision (p)(1); or adopting maximum parking requirements at or less than ratios pursuant to Gov. Code section 65915, subdivision (p).

Not sure what the current requirements are--but this is nuts to eliminate a parking minimum. Santa Cruz County never has been and never will be (the way things are going) a place where people even CAN take public transportation to work--since most of it is over the hill. Where will people PARK for these huge housing units that are being proposed? Will we become like SF? Impossible to find parking?

Zoning or other land use designation methods to allow for residential or mixed uses in one or more non-residential zones (e.g., commercial, light industrial). Qualifying non-residential zones do not include open space or substantially similar zones.

Will the County recognize meadows (such as across from the Henry Cowell State Park campgrounds) as "substantially similar zones," or will we see MORE of that type of environmentally unfriendly developments attempted in our unincorporated areas?

Thank you.

Hello,

My name is Michael Cox. I am the general manager for a small family-owned business that has a few small residential and commercial rental properties and tries to maintain rents at median market.

Congratulations on the Prohousing application. I looked through the application and supporting documentation. I did not see any significant issues that I might recognize, but my experience is limited. Lissner Properties does manage one of the former motels now in the PRH Zoning Overlay. We were one of the first to apply and helped the County by funding private legal review from the late Miles Dolinger, a top land use attorney at the time. I am very happy to see the PRH overlay included in the application. While not a huge number of units, nearly all were affordable in fact and by design. Many were renting at prices that qualified for very low income designation, so to me that was a great win.

Good luck with the application and keep up the great work!

Happy Holidays and best regards,

Michael Cox

Whereas:

- Most parts of Santa Cruz county is within a few miles of the San Andreas Fault with a history of destructive seismic activity, and
- Our aquifer is over 26,000 acre-feet overdrawn before the most recent surge of developments, and
- Our roads are overwhelmed with single occupant commuter traffic, and
- Most traffic signaling is primitive timed-only rather than computer coordinated Demand controlled intersections, and
- There is a 5 year backlog of street repairs, county-wide, and
- Santa Cruz county, City of Santa Cruz building departments are overwhelmed and unable to serve applicants in a timely fashion, and
- There is no evidence of aggressive enforcement of vacation rental or absentee foreign ownership of housing, and
- Schools in south county are a disgrace and are in the throes of a budget crisis, and
- The construction of multifamily housing along Riverview has changed the character of Santa Cruz and has the look of suffocating, urbanized cities like San Mateo.

Therefore, many residents like me who moved here for the charm, vibrant downtown of City of Santa Cruz, the proximity of forested areas and beaches do not benefit from more building development, increased sales taxes to pay for additional HiWay 1 lanes, having to organize daily travel around traffic, or the threat to private well owners.

I want all local governments to slow adoption of this housing law so we can adapt to the challenges listed above.

Thank you,

So is this the same committee that is currently destroying our town?

and you want to be recognized for it, so you can build more housing to bring more people in that do not live here yet?

that sounds wonderful

how about no... you've done enough damage

maybe go destroy somewhere else

To Whom it Concerns,

How could I possibly support this measure when all I ever get from the County is endless obstacles and extreme fees to build. Is this a joke or are you serious? I am currently building 7 new ground up units and have property to construct 14 more but will most likely no pursue further development due to such high fees and the lack of team support from the county.

Dear Staff,

Thank you for the opportunity to comment. I do not support the movement to increase housing. There is already too much traffic on the highways, more road rage, and as demonstrated in scientific experiments with rats; crowding is directly correlated with aberrations in behavior including aggression and actions considered immoral by most humans. The multiunit housing designed to maximize occupancy and consequent tax revenue creates a monolithic appearance and reduces aesthetic value of the area. I believe the problem fixes itself in terms of carrying capacity as in nature. We have reached or exceeded our carrying capacity and it is already too crowded. People can choose to live in more affordable cities with less congestion. As far as the draw for tax and state revenue, lets be sensible and live within our means. Simply make government smaller and more efficient. Let's not continue to wreck this beautiful place.

Respectfully,

Nader

RE: Support for Santa Cruz County's Prohousing Designation Application

Dear Mr. Connelly:

On behalf of Linc Housing, I am writing to express our strong support for the County of Santa Cruz's application for Prohousing Designation by the California Department of Housing and Community Development (HCD). The County's application reflects a clear commitment to reducing barriers to housing production and advancing equitable, sustainable communities.

Our direct experience working with the County underscores the merits of this designation. The County has been a strong partner on Linc Housing's 41st and Soquel development, a 294-unit affordable housing project that recently secured 4% Low-Income Housing Tax Credits. The Planning and Development Services team has worked collaboratively with us to pursue more streamlined entitlement practices, while the County Housing Authority has provided project-based vouchers to support extremely low-income households. Throughout the process, County staff have remained engaged and supportive, helping to facilitate productive community conversations while keeping the project moving forward.

Access to state funding is critical to addressing Santa Cruz County's affordable housing needs. Prohousing Designation will further strengthen the County's ability to deliver housing that meets regional needs, supports disadvantaged communities, and prevents homelessness.

Linc Housing supports this application and encourages HCD to approve the County of Santa Cruz for Prohousing Designation.

Sincerely,

Sincerely,

**RE: Support for Santa Cruz County's Prohousing Designation Application**

Dear Mr. Connelly,

On behalf of **Housing Santa Cruz County (HSCC)**, I am writing to express our strong support for the County of Santa Cruz's application for **Prohousing Designation** through the California Department of Housing and Community Development (HCD).

The County's Prohousing application reflects a clear and meaningful commitment to policies and programs that advance affordable housing production, reduce barriers to development, and promote equitable, sustainable communities. At a time when Santa Cruz County continues to face an acute housing shortage impacting seniors, low-income households, working families, and individuals experiencing homelessness, this commitment is both timely and essential.

Access to state grants and other funding sources is critical to addressing the County's housing needs. Prohousing Designation will strengthen the County's ability to compete for these resources, enabling greater investment in affordable housing development, homelessness prevention, and housing solutions that support residents across all income levels. These funds will also help advance fair housing goals, protect against displacement, and support housing strategies that align with climate resilience and long-term community wellbeing.

Housing Santa Cruz County has worked with the County to support housing initiatives and advance projects that move from concept to completion. We value the County's leadership and collaboration and look forward to continuing to work together to implement housing strategies that align with state priorities and respond to local needs.

We respectfully encourage HCD to approve this application and designate the County of Santa Cruz as a **Prohousing jurisdiction**.

Sincerely,

Obtener una Designación "Prohousing" documenta el compromiso del Condado con el desarrollo de viviendas y reconoce el trabajo que ya se ha realizado para abordar la escasez de vivienda y la crisis de asequibilidad. Las jurisdicciones "Prohousing" son elegibles para solicitar fondos del Programa de Incentivos "Prohousing" y reciben acceso prioritario a subvenciones estatales para desarrollo de viviendas asequibles.
