The plumbers listed above have committed to the following:

When providing video inspections for the County's Sanitary Sewer Lateral Program, I, and my company, will:

- Provide quality videos adhering to the following:
 - ✓ Starting with a clean camera lens and if view becomes obscured, clean lens
 - ✓ Record the entire private sewer(s) serving the parcel (multiple structures may require multiple videos) up the connection to the public sewer main
 - ✓ Recording speed not to exceed 20 feet/minute
 - ✓ Pausing at all joints/defects/ tie-ins for at least 3 seconds
 - ✓ Attempting to video in a level orientation at the bottom of the pipe looking down center of pipe
 - ✓ Linear footage markings must be recorded in the video
 - ✓ Well-lit and in color
 - ✓ Submitted in a timely manner
 - ✓ Uploaded to County Sanitation's shared collaboration folder on box.com
- Provide Inspection Reports adhering to the following:
 - ✓ Use of most current form as provided by the County
 - ✓ Form is completely filled out
 - ✓ Assessor Parcel Number (APN) is provided
 - ✓ All observed defects are logged, paying special attention to signs of inflow and infiltration (I&I) and exfiltration
 - ✓ Sketch of inspected parcel is completed and shows lateral layout and cleanout location
 - ✓ All questions are answered
 - ✓ Recommendations are provided
 - ✓ Form is signed by a licensed plumber

Note: This is not a restrictive list. Contractors not listed shall contact County Sanitation staff for access to the Lateral Program video submittal platform (on box.com) and shall adhere to inspection criteria.
